This is in *Gold* and one of the most interesting pieces ever offered to American collectors, and as no other piece has ever been heard of, *in this Metal*, it is as fairly entitled to be called *unique* as any other coin that can be named. In the absence of any positive history connected with this piece I think it was most probably struck in compliment to General Washington and no other in *Gold* was allowed to be issued. It was possibly used for some time as a pocket piece which would account for the evidence of slight circulation it exhibits. Be this as it may it will be invaluable to any one collecting Washington Coins or Medals.
